EDUCATION

IIIT Nagpur

B.Tech in Computer Science (Data Science & Analytics); CGPA: 8.78/10

Nagpur, India

Aug 2023 – June 2027

Coursework: Adv. Probability & Statistics, Linear Algebra, DBMS, Big Data Analytics, Data Mining & Warehousing.

WORK EXPERIENCE

Lambence Private Limited | Data Analyst Intern | Nagpur, India (Hybrid)

Jan 2026 – Present

- Executed competitive benchmarking against **5+ market rivals**, identifying feature gaps and implementing **12+ strategic product enhancements** accepted by leadership.
- Spearheaded a data-driven UI/UX audit of the firm's website, collaborating with developers to deploy **20+ fixes**, reducing bounce rate by **15%**.
- Analyzed user session data to identify **3 critical friction points**, leading to an optimization strategy that improved navigation flow for **2,000+ monthly visitors**.

AICTE Edunet Foundation – VOIS for Tech | Virtual Data Analytics Intern | Remote

Sept 2025 – Oct 2025

- Analyzed **10+ structured datasets** (100k+ rows) using Python to derive actionable insights across Agriculture & Business.
- Designed analytical workflows converting natural-language queries into reports, achieving **95% query accuracy**.
- Conducted comparative analytics, reducing insight generation time by **40%** through automated scripting.

PROJECTS

E-Commerce Customer Churn & CLV Analysis ([Link](#)) | Python, SQL, Power BI, Scikit-Learn

Feb 2025

- Developed a Churn Prediction pipeline (Random Forest) on **5,000+ customers**, achieving **85% accuracy** in identifying at-risk users.
- Performed Cohort Analysis and RFM segmentation to calculate Customer Lifetime Value (CLV), identifying **\$12,000+** in revenue risk.
- Designed an interactive Power BI dashboard to track **5+ key retention metrics**, visualizing monthly churn drivers.

Florida Keys Coral Reef Health Assessment ([Link](#)) | Python, Seaborn, Prophet

Jan 2025

- Analyzed **50,000+ ecological records** from **200+ monitoring stations** to quantify biodiversity decline over 27 years.
- Engineered **4 statistical health indicators** to support conservation decision-making with data-driven evidence.
- Built time-series forecasting models using Prophet (**≈ 85% fit**) and visualized long-term trends using Seaborn.

SKILLS

Data Analysis: SQL (MySQL, PostgreSQL), Python, Pandas, NumPy, EDA, Statistical Analysis, A/B Testing, Forecasting

Visualization & BI: Power BI (DAX), Tableau, Excel (Pivot Tables), Matplotlib, Seaborn, KPI Dashboards

Business Analytics: Cohort Analysis, RFM Segmentation, Churn Prediction, Insight Generation, Data Quality

Tools & Environment: Git, Jupyter Notebook, Docker, Google Colab

ACHIEVEMENTS

FiniX 2025 Finance & Strategy Competition | 1st Place Winner

Jan 2025

- Secured **1st Position** by performing financial valuation. Modeled revenue projections for a **\$5M+ merger scenario** against competition.

National Space Hackathon | ISRO

Aug 2024

- Runner-up; Conducted statistical analysis on geospatial datasets, achieving **92% accuracy** in crater detection metrics.

Unstop Leaderboard ([Profile](#)) | Competitions

Dec 2023 – Present

- Ranked among **Top 3,086 globally** (Top 0.001%) with **138,000+ points** across 70+ analytics challenges.

CERTIFICATIONS

JPMorgan Chase & Co. Quantitative Research Virtual Experience ([Link: Certificate](#))

Jan 2026

Focus: Credit Risk Modeling, Data Analysis, Statistical Probability, Predictive Modeling, FICO Score Analysis.

Complete Data Analyst Bootcamp (Udemy)

Jan 2025 – Present

Focus: SQL, Power BI, Tableau, Statistical Analysis, Python (Pandas, NumPy), Snowflake.

Vodafone Idea Foundation – VI Learning Program ([Link: Certificate](#))

Sept 2025

Focus: Exploratory Data Analysis (EDA), Data Visualization, Python for Analytics.

EXTRACURRICULAR

Google Developer Group (GDG) – IIIT Nagpur | Dev-Talks Co-Lead

Feb 2024 – Present

- Hosted **10+ podcasts** with industry professionals; Organized analytics workshops for **100+ participants**.
